## 'NFL WAS FIRST TO MANUFACTURE NEEM-COATED UREA'

**MANOJ MISHRA**

CHAIRMAN & MANAGING DIRECTOR, NFL

**1 ON NFL'S PERFORMANCE IN 2015-16:** We produced 3.8 million MT of urea in 2015-16, which is highest ever. This accounts for 15.5 per cent share of the total urea production of 245 LMT of the country, which is also highest ever.

**2 ON THE RESPONSE OF FARMERS TO NEEM-COATED UREA:** *Farmers are happy with this product as it gives better yield and has anti-pest qualities. I am proud to inform that NFL was pioneer in developing and marketing this value-added product in the year 2004.*

**3 ON MARKETING CITY COMPOST:** NFL has entered into an agreement with South Delhi Municipal Corporation (SDMC) and Indore Municipal Corporation for marketing 100 per cent of city compost produced from these municipalities.

**4 ON RAMAGUNDAM REVIVAL PROJECT:** *The zero date of the JV project has been declared on September 25, 2015, and the plant is envisaged to be commissioned in 36 months from the zero date.*

**5 ON PLANS FOR 2016-17:** *Other than urea, we shall be focusing on industrial products, and other fertilisers like DAP & MOP. We have a vision plan for achieving the turnover of ₹15,000 crore in the next five years.*
